DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 14-52 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term "cooperatively applying polymers" in claims 14, 15, 16, 17, 18, 19, 20, 21, 59, 51 and 52 is not clearly described in the specification.

2. Claim 30 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 30, the step of cooling or heating is not positively claimed. The term "can be heated or cooled" should be "are heated or cooled".

Response to Amendment

Applicant has filed a request for interference in this application and some of the claims have been copy from the patents (see applicant 's Remarks filed on 2/09/04. The term "cooperatively applying polymers (s)" have been copy from the claims in the mentioned patents, however, The Applicant specification lack bases for the term as defined in the specification of the indicated patents.
